

CHELSEA CLOCK

NAUTICAL
SINCE 1897

CHELSEA CLOCK

America's Authentic Nautical Timepiece.

FOR MORE THAN A CENTURY, THE CHELSEA NAME HAS BEEN AS MUCH A PART OF THE SEA AS THE TIDES; AS MUCH A PART OF THE SAILING LIFE AS THE CALL TO EXPLORE AND DISCOVER.

Since 1897, mariners from ports worldwide have marked their moments on the water with a Chelsea clock. Born from an abiding passion for excellence and innovation, Chelsea Clock has long enjoyed a reputation as the finest maker of precision marine mechanical clocks. Designed and meticulously crafted by elite master clock makers, our nautical pieces adhere to the highest standards, ensuring accuracy and longevity - no matter what the changing sea conditions. Each is a superb work of art, blending classic style and exceptional strength to ensure lasting beauty and reliability for generations.

Today, Chelsea clocks, barometers and tide instruments can be found aboard seafaring vessels of all kinds - from luxury yachts to U.S. Navy destroyers; sailboats to cruise ships. Many are still hand-made right here in Chelsea, Massachusetts, by skilled artisans who employ the same time-honored techniques to shape raw materials such as solid brass into magnificent works of art. But what makes Chelsea the choice for so many goes far beyond its reputation as an exquisite time machine. Because a Chelsea does more than reflect the passing minutes - it marks life's most memorable moments.

In 1936, United States Navy Admiral Richard E. Byrd, Jr., extends his gratitude to Chelsea Clock for the marine clocks used on his expedition to the South Pole. Byrd, a pioneering American aviator and polar explorer, is the recipient of the U.S. Medal of Honor, the highest honor for heroism.

By 1939, Chelsea Clock was already producing hundreds of marine clocks for the U.S. Government. With the increasing war activities of World War II, the company was challenged to dramatically increase production and, in turn, tripled its workforce.

The Ship's Bell Clock

This distinctive, handcrafted mechanical timepiece signals the passing of time with gentle, rich-sounding chimes – eight bells at 4, 8 and 12 o'clock to mark the end of a mariner's four-hour watch, with one bell the first half-hour after, plus one additional bell with each subsequent half-hour. Behind its classic, hand-silvered dial, 364 precision brass parts – many plated with gold – and 11 jewel movements, all of which are made in Chelsea, Massachusetts, ensure accuracy in time and enduring quality for years to come. Since the first patented Ship's Bell left our factory in 1900, it has been held as the standard by which all other Chelsea clocks are measured. 6" dial; lacquered solid forged brass case; hinged bezel. Five-year warranty.

Item: 20496

Weight: 9.2 lbs.

Dimensions: 7" Dia. X 3 3/8" D.

Also available: 6" Dial, Nickel Finish – 90496; 8 1/2" Dial, Brass Finish – 20937;

8 1/2" Dial, Nickel Finish – 90937; 4 1/2" Dial, Brass Finish – 20501; 4 1/2" Dial, Nickel Finish – 90501

Andover Classic

The Andover Classic is a superb timepiece in the Chelsea tradition of fine craftsmanship and distinctive clock making. Featuring our signature key-wind Ship's Bell chiming mechanism, this distinctive clock features a highly-polished solid forged brass case set atop a luxurious, hand-finished walnut wood base. Boasting a deeply etched silver dial, the Andover Classic features beautifully detailed decorative hands and hand applied gold-plated numerals. 8 1/2" dial. Five-year warranty.

Item: 29082

Weight: 27 lbs.

Dimensions: 12 3/4"H x 14"W x 5 3/4"D

The Ship's Bell Barometer

Our classic Ship's Bell Barometer, designed as a companion piece to the Ship's Bell Clock, features a double bellows holosteric movement that mechanically measures changes in atmospheric pressure to foretell changing weather. Readings of "Stormy," "Rain," "Change," "Fair," or "Very Dry" are handsomely displayed on the piece's rich, hand-silvered dial. The 4 1/2" and 6" dial editions of this precision instrument also include a thermometer tube that provides accurate temperature readings. Barometer movements are calibrated to sea level and can be adjusted for altitudes up to 5,000 feet above sea level upon request. 6" dial; lacquered solid forged brass case; hinged bezel. Five-year warranty.

Item: 20825

Weight: 10 lbs.

Dimensions: 7" Dia. X 3 3/8" D.

Also available: 6" Dial, Nickel Finish – 90825; 4 1/2" Dial, Brass Finish – 20625; 4 1/2" Dial,

Nickel Finish – 90625; 8 1/2" Dial, Brass Finish – 20941; 8 1/2" Dial, Nickel Finish – 90941

The Mariner

Considered one of the finest nautically-inspired clocks ever made in this country, the Mariner is a true masterpiece of American clock making. An exact reproduction of an original yacht wheel, the Mariner was first patented and produced by Chelsea Clock in 1911. Featuring our renowned chiming Ship's Bell mechanism, this exquisite timepiece boasts 11 jewel movements and 364 brass and gold-plated precision parts. Its forged solid brass bezel opens with the original "shield" hinge-and-latch design. The clock's dial is painstakingly crafted of deeply etched brass that is hand silvered, enameled and lacquered. The wood base and back are crafted of solid mahogany, while the wheel's ring and base are finished using our own lustrous hand-rubbed copper bronze process and lacquered to prevent tarnish. Presented in a luxurious custom-designed gift box. 6" dial. Five-year warranty.

Item: 2003
Weight: 33 lbs.
Dimensions: 17 1/2"H x 14"W x 5 1/2"D

The Pilot

The Pilot echoes the beauty and majesty of our famed Mariner clock and makes it suitable for wall display. This magnificent nautically-inspired timepiece features all of the distinctive qualities of its mantle counterpart, including our exclusive handcrafted chiming Ship's Bell mechanism. Presented in a custom-designed gift box. 6" dial. Five-year warranty.

Item: 2004
Weight: 15 lbs.
Dimensions: 14" Dia. x 3"D

The Shipstrike Mechanical Clock

Our Shipstrike Mechanical Clock offers many of the same distinctive features as our signature Ship's Bell clock - including chiming bell tones, a high-quality forged solid brass case and hinged bezel. However, unlike our Ship's Bell, this specially-engineered clock incorporates a precision-crafted jewel German movement. 6" dial. Two-year warranty.

Item: 40026
Weight: 7 lbs.
Dimensions: 5 11/16 Dia. x 3 1/2" D.
Also available: 4 1/2" Dial
Shipstrike Mechanical
Clock - 40013

The Shipstrike Quartz Clock

For those who seek the charm of our traditional Ship's Bell chime, but the convenience of a fine German quartz movement, we offer the Shipstrike Quartz clock. Crafted from forged solid brass, this clock features an easy-to-remove screw bezel and a sweep second hand. 4 1/2" dial. Battery operated. Two-year warranty.

Item: 40033
Weight: 7 lbs.
Dimensions: 5 11/16 Dia. x 3 1/2" D.

All of our Ship's Bell clocks, including the Mariner and the Pilot, are accompanied by a Certificate of Authenticity, and are individually numbered and registered in the official Chelsea Clock manufacturing log.

6 The Carbon Fiber Collection

The Carbon Fiber Collection masterfully blends the intricacy of fine watch face design, the dramatic styling of carbon fiber and the strength of solid forged brass cases to create a truly unique series of clocks, barometers and tide instruments. A distinctive addition to any boat or home, these pieces feature precision etched carbon fiber dials and classic screw bezels for a striking, bold look.

Carbon Fiber 12-Hour Clock

Sleek and contemporary, the Carbon Fiber 12-Hour Clock brings notable style to every hour of the day with its striking etched carbon fiber dial, bold sport-style hands, and white enameled numerals. 4 1/2" dial. Two-year warranty.

Item: 80150
Weight: 5 lbs.
Dimensions: 5 3/4" Dia. x 2 1/2" D.

Carbon Fiber Barometer

The Carbon Fiber Barometer features a double bellows holosteric barometer movement, and a carbon fiber etched dial with both inch and milibar scales. 4 1/2" dial. Two-year warranty.

Item: 80120
Weight: 6 lbs.
Dimensions: 5 3/4" Dia. X 2 1/2" D.
Also available: 4 1/2" Dial, Brass Finish - 40120

Carbon Fiber Tide

Our Carbon Fiber Tide instrument features a stunning carbon fiber etched dial and bold sport-style hands. 4 1/2" dial. Two-year warranty. Designed to display tide readings for East Coast (USA) only.

Item: 80143
Weight: 9 lbs.
Dimensions: 5 3/4" Dia. X 2 1/2" D.

Carbon Fiber Flag Clock

The Carbon Fiber Flag clock features a precision etched carbon fiber dial with richly-colored enameled nautical flags representing the numerals one through twelve. Stylish sport hands add to the dramatic look of this exceptional timepiece. 4 1/2" dial. Two-year warranty.

Item: 80119
Weight: 9 lbs.
Dimensions: 5 3/4" Dia. X 2 1/2" D.
Also available: 4 1/2" Dial Carbon Fiber Clock, Brass Finish - 40119

The Polaris Collection

Boasting the allure of elegant watch styling and the timelessness of classic clock design, the Polaris Collection is a true work of art. This extraordinary series features a subtle contrasting matte and frosted silver dial adorned with bold cobalt blue numerals, as well as a traditional screw bezel with handsome beveled glass.

Polaris 12/24 Hour Clock

In the tradition of fine nautical timekeeping, the Polaris 12/24 Hour Clock offers both AM/PM and military hours. Its dial features black enamel 12- and 24-hour markings and bold sport-style hands. 4 1/2" dial. Two-year warranty.

Item: 40135
Weight: 6 lbs.
Dimensions: 5 3/4" Dia. X 2 1/2" D.

Polaris Tide

A 4 1/2" precision etched silver toned dial and bold sport-style hands give our Polaris Tide a distinctive and timeless look. Designed to display tide readings for East Coast (USA) only. Two-year warranty.

Item: 40147
Weight: 6 lbs.
Dimensions: 5 3/4" Dia. X 2 1/2" D.

Polaris Barometer

Our Polaris Barometer features a double bellows holosteric barometer movement, with black enamel inch and milibar scales. 4 1/2" dial. Two-year warranty.

Item: 40133
Weight: 6 lbs.
Dimensions: 5 3/4" Dia. X 2 1/2" D.

During the metals shortage of World War II, the U.S. Navy challenged Chelsea to develop an alternative casing for its brass nautical timepieces: a material that would withstand the rigors of battle and every-day sea life. This gave birth to Chelsea's phenolic resin case, a lightweight yet highly durable material that would not break nor shatter like conventional plastic. Phenolic resin is used to manufacture Patriot and Radio Room clocks to this day.

Chelsea Clock produced clocks for thousands of navy vessels used during WWII, such as the USS S-36 Submarine. In 1943, the company was presented with the prestigious "E" award from the U.S. Government for wartime production excellence.

Our Voyager Collection of fine nautical timepieces and barometers is designed for display in a variety of settings - especially where space may be limited. Skillfully crafted from solid forged brass and machined to an exquisite matte finish, the Voyager Collection boasts clean lines and fresh, contemporary styling.

Voyager Clock

This precision quartz movement clock features a 3 1/2" dial with 12- and 24-hour markings and classically detailed hands. Accented by a distinctive beveled glass crystal, this smartly designed timepiece mounts easily to most any surface and features a screw bezel for simple access to time adjustment and battery replacement. Flawlessly hand lacquered to be weather-resistant and prevent tarnish. Two-year warranty.

Item: 20994
Weight: 1.75 lbs.
Dimensions: 3 13/16" Dia. X 1 1/2" D.
Also available: Voyager Clock, Ebony Dial - 20995

Voyager Barometer

The maintenance-free Voyager Barometer features an easy-to-read dial with inch and millibar scales and a precision, German-engineered single bellows holosteric movement. Accented by a handsome beveled glass crystal, this compact seafaring instrument is calibrated to sea level and can be adjusted for altitudes up to 5,000' above sea level. It mounts to most any surface and features a screw bezel, allowing easy access for removal and adjustments. Hand lacquered to be weather-resistant and prevent tarnish. Two-year warranty.

Item: 20997
Weight: 1.75 lbs.
Dimensions: 3 13/16" Dia. X 1 1/2" D.
Also available: Voyager Barometer, White Dial - 20996

Chart Weight Clock

Our classic chart weight clock is the perfect addition to any navigator's desk or station. Crafted from solid brass, this quartz chart weight clock is lacquered and hand-buffed to a lustrous, tarnish-resistant finish. The clock's base is felt lined to protect surfaces and prevent slipping. Two-year warranty.

Item: 20981
 Weight: 1.15 lbs.
 Dimensions: 3 1/2" Dia. X 3/4" H.
 Also available: Chart Weight Clock, Nickel Finish - 90982

Chart Weight Compass

Navigate in style with this classically-designed chart weight compass. Milled from solid brass, this nickel-plated compass is lacquered and hand-buffed, and has a felt-lined base, just as its companion chart weight clock. Two-year warranty.

Item: 90982
 Weight: 1.15 lbs.
 Dimensions: 3 1/2" Dia. X 3/4" H.
 Also available: Chart Weight Compass, Brass - 20982

Constitution

Named for the USS Constitution, the first ship commissioned by the U.S. Navy, this exquisite, nautically-inspired timepiece captures the grandeur and stately elegance of this celebrated vessel. Its forged solid brass case hosts a softly reflective hand-silvered dial, etched with classically-styled black numerals. Refined details such as a stepped pedestal base and ball feet make this clock the perfect complement to any room décor. 3 1/2" dial; precision quartz movement. Two-year warranty.

Item: 20886
 Weight: 8 lbs.
 Dimensions: 5 1/2"H x 5 1/4"W x 2 1/8"D
 Also available: Nickel finish - 90886

Patriot Deck Clock

An authentic reproduction of Chelsea Clock's WWII era navy engine room deck clock, the Patriot Deck Clock features exact details of the original model that could be found on thousands of navy vessels dating back to the early 1900s. The case is custom made from phenolic resin, a durable, heat resistant material designed to last for decades. While brass was, and still is, typically used in the production of Chelsea clocks, the company turned to phenolic cases during war time due to the metal's shortage. This unique timepiece also features 12- and 24-hour markings, a hinged bezel, military-style dial and a sweep second hand. 6" dial; matching wood screws for mounting.

Item: 20992
 Weight: 1.5 lbs.
 Dimensions: 7 5/16" Dia. X 2 3/8" D.
 Also available: 6" Black Dial - 20993

Radio Room Clock

The sinking of the Titanic resulted in the Radio Act of 1912, requiring 24-hour radio watches at sea. The disaster also led to the design of a special Radio Room clock, which features two 3-minute periods marked in red to indicate a period of silence when only emergency radio messages can be transmitted. Two green markings designate periods of silence during which one must listen for coastal distress signals. Over the years Chelsea has produced thousands of these types of clocks according to US Government specifications for use aboard military vessels. The case is custom made from phenolic resin, a durable heat resistant material designed to last for decades. This unique timepiece also features 12- and 24-hour markings, a hinged bezel, military-style dial and a sweep second hand. 6" dial; matching wood screws for mounting.

Item: 40101
 Weight: 1.5 lbs.
 Dimensions: 7 5/16" Dia. X 2 3/8" D.

In 1976, Bill Hilliard, then vice president and general manager of Chelsea Clock, presented the USS Constitution, known as "Old Ironsides," with a Chelsea Twenty-Four Hour nautical clock.

In 2006, explorers find a Chelsea clock aboard the USS Saratoga, the second air craft carrier of the U.S. Navy and the fifth ship to bear her name. Launched in 1920, the Saratoga is one of only three fleet aircraft carriers built before the war to survive and serve throughout its involvement in World War II.

Accessories and Personalization

We are pleased to offer a wide range of accessories and personalization options to enhance your Chelsea Clock timepiece, barometer or tide instrument. Choose from a broad selection of distinctive, hand-rubbed wood bases and mounting plaques. Or personalize a Chelsea for yourself or someone special with exquisite engraving, monogramming or imprinting. Visit our website at www.ChelseaClock.com for a complete selection of accessories and personalization services, exclusively from Chelsea Clock.
